

2026

Central Coast Climate Resilience Symposium

December 9, 2026

Santa Cruz, CA

Join us in shaping a dynamic regional symposium for Central Coast leaders to advance climate resilience!

The 2026 Central Coast Regional Climate Resilience Symposium will serve as the premier gathering of climate adaptation and resilience leaders from across California's 6-county Central Coast region. The Symposium aims to:

- * **Convene** hundreds of decision-makers, practitioners, and partners representing a diverse cross-section of communities, sectors, and levels of government.
- * **Showcase** equitable, community-driven climate resilience initiatives to highlight outcomes, lessons learned, and replicable strategies.
- * **Collaborate** with Central Coast leaders to understand shared climate resilience priorities and identify pathways to build partnerships, access upcoming funding opportunities, and build momentum for implementation.

We invite you to partner with the Central Coast Climate Collaborative (4C) as a Sponsor to help make the Symposium not only possible, but transformative.

**For more information or to secure your sponsorship, please contact
Julia Kim at julia@centralcoastclimate.org.**
